Technical skills

- **Programming:** Java, Java 11/17/21, C/C++, Bash, JS, TS, JavaScript, TypeScript, Python 3, ADA, TODO
- **Frameworks:** Spring, Swing, Express.js, OpenMP, OpenGL, Node.js, TODO
- **Tools:** Git, Linux, Maven, REST APIs, Cloudflare, Google Cloud, TODO

Spoken Languages

- **French** (Native)
- **English** (C1)
 - 2-year US expat & classes
- **German** (B1)
 - Erasmus exchange & classes

Soft skills

- **Teamwork**
 - school project
 - scouting
- **Critical thinking**
 - epistemology
 - zetetic
- **Pedagogy**
 - scouting
 - tutoring

Hobbies & Interests

- Open Source Contributions
- GNU/Linux
- Scouting (10 years)
- Rock climbing (when I have time)
- Biking

Education

Erasmus exchange semester

Sep 2025 - Feb 2026

Hochschule Konstanz / Konstanz Hochschule,
Konstanz, Germany

• Cloud Application Development (Google Cloud, Docker, GitHub Actions CI)
Master's Degree in CS and Software Engineering Sep 2023 - Sep 2026 / 2023 - 2026

ENSEEIH, Toulouse, France

- Specialisation: Formal Methods and Software & Systems Engineering
- Practical coursework and lab work in software development, verification and theoretical computer science
- Team projects in software engineering, web dev and formal methods
- Specialisation: Software & Systems Engineering
- Full Web application (Java, React, SQL)
- Peer to Peer file sharing system (Java, Swing)

Preparatory class, Math, Physics, CS Sep 2021 - Jul 2023 / 2021 - 2023

Janson-De-Sailly highschool, Paris,
France

- Algebra, Analysis, Functional & dynamic programming, Mechanics, Thermodynamics, Chemistry, Thermochemistry

General Baccalaureate Sep 2014 - Jun 2021 / 2014 - 2021

Le Caousou highschool, Toulouse,
France

- Baccalaureate with honors majored in math and physics, ancient Greek option

Projects

Cloud Hervy - Google Drive clone

2024

Personal project

- Discovery of the JS ecosystem: Express.js, TS, Node
- Development of a REST API (server/client)
- Designed a full-stack file-storage app and REST API using Express.js, Typescript, Node.js and MongoDB
- Focus on modularity and maintainability

Particle life simulator 2024

ENSEEIH, OOP class

- Agile methods and Scrum framework
- Java OOP, Java Swing
- Developed an interactive particle simulation using Java and Swing
- Practiced OOP design patterns and agile teamwork

Professional Experience

Intern Software developer

Jun - Jul 2025

IRIT, Toulouse, France

- Developed a Java annotation processor that generates runtime contract checks from JML-style specifications using ANTLR and JavaC AST manipulation, delivered as a tool for student use.

Intern Web Developer (WordPress) Jun 2024

Les Maths En Scène, Toulouse, France

- Redesigned the association's digital identity by revamping its website (WordPress web development).

Private Maths and Physics Tutor, Freelance 2022 - present

Toulouse & Paris, France

- Weekly home tutoring
- Volunteer tutoring in a Parisian highschool

Waiter

2023

Arcadie's Gardens (senior's residence), Toulouse, France

- Service at the residence restaurant
- Meal delivery to apartments for the most disabled residents

Shadowing intern, Public research labs

Dec 2017 & Jun 2019

BIPM & IRAP, Toulouse & Paris, France

- Exploration of work conducted on measurement units
- Understanding the importance of teamwork (international, inter-laboratory)
- Familiarization with methods for designing space missions
